

USW/KSCU Negotiations
Re: USW 1-405 & 9705

UPDATE: KSCU serves 72-hour lockout notice

Shortly after bargaining broke off Monday night and the USW issuing 72 Strike Notice, Kootenay Savings has in turn, issued 72 Lockout Notice. Both parties will be in a legal work stoppage position as of Friday morning, October 21, 2016.

After 12 months of bargaining, including the last four days of mediation with a provincial mediator, the USW bargaining committee for the membership at Kootenay Savings Credit Union issued 72-hour Strike notice to the employer Monday night in Trail.

USW Locals 9705 and 1-405, representing unionized branches and offices in Trail, Castlegar, Salmo, South Slocan, Kaslo, Fruitvale and Kimberley.

“The employer continued to refuse to remove their concession that eliminates the pension protection language that was bargained into the agreement almost 30 years ago,” said Dean Lott, lead negotiator for the union.

“The employer continues not come to the table with a fair wage increase and insisting on the pension concession. Our membership, with a strike mandate of 96.3%, is not going to waver on this issue. The pension protection language is the most important issue on the table and it has to continue to be in the collective agreement.”

“The employer has not shown us any model where there is any kind of worst-case scenario for the removal of the language. We will not bargain ‘what if’s’”. The Union remains committed to returning the table to bargain a fair collective agreement at any time.”

Please contact USW Staff Rep Dean Lott for comment – 250-231-9788
